Dear Mr. McGarry:

On 4 January 2013, the office of the Information and Privacy Coordinator received your 4 January 2013 Freedom of Information Act request, submitted on behalf of Bloomberg News, for information about accidents, mishaps and events, involving unmanned aerial vehicles (UAVs), unmanned aerial systems (UASs) and remotely piloted aircraft (RFP), (hereinafter the Records). Specifically, you are requesting:

- 1. The total number of accidents and flying hours for each type of unmanned aircraft, for each class of mishap and type of event, and for each year from fiscal 2001 through fiscal 2012 (to date).**
- 2. Any and all reports describing each incident, including the date, the amount of damages to both property and aircraft (in U.S. currency), and the number and extent of casualties, including injuries and deaths.**

Our officers will review it and will advise you should they encounter any problems or if they cannot begin the search without additional information. We have assigned your request the reference number above. Please use this number when corresponding so that we can identify it easily.

Sincerely,

A handwritten signature in cursive script, reading "Michele Meeks".
